Keerthi Vanan
AI Engineer

Contact Number: +91 7092761445, +447532668920

Email: keerthivanan.ds.ai@gmail.com

Profile

Enthusiastic AI engineering professional experienced in building AI-related products while working with international clients across diverse industries. Driven by a strong passion to learn daily, experimenting with emerging GenAI tools, and improving technical skills to stay aligned with the fast-evolving AI landscape.

Skills and Software

· Languages: Python, R, SQL, Shell Scripting

· AI/ML Frameworks: TensorFlow, PyTorch, Keras, Scikit-learn, Hugging Face Transformers, XGBoost, NLTK, spaCy, n8n, Antigravity

· Data Science: Pandas, NumPy, Matplotlib, Seaborn, Plotly, SciPy, Jupyter Notebook

· Deep Learning: CNN, RNN, LSTM, GRU, Transformers, GANs, Autoencoders, BERT, GPT

· MLOps & Tools: Docker, Git, GitHub Actions, CI/CD, Flask, FastAPI, Streamlit, LangChain, LangSmith

· Cloud Platforms: AWS (SageMaker, EC2, S3), Google Cloud Platform (Vertex AI)

·Databases: MySQL, PostgreSQL, Redis, Vector Databases (Pinecone, ChromaDB, Qdrant, Supabase)

· Soft Skills: Team Collaboration, Communication, Project Management

Education

Dr. MGR Educational and Research Institute
Bachelor of Technology - Computer Science & Engineering; CGPA: 8.2/10
Courses: Machine Learning, Deep Learning, Artificial Intelligence, Natural Language Processing, Database Management Systems,Statistics & Probability, Neural Networks
2021 - 2025

St. Vincent Matriculation Higher Secondary School
Higher Secondary Certificate - Computer Science Group; Percentage: 72%
2020 - 2021

Experience

Gen AI Architect – Logistics Platform
(Independent)

· **AI-Powered Logistics Platform**: Designed and developed a platform for shipment tracking, carrier integration, and quotation workflows

· **Intelligent Support Assistant:** Implemented a Retrieval-Augmented Generation (RAG) system to answer pricing,

· shipment, and policy-related queries using LLMs

· **Backend Development:** Built robust backend services with FastAPI for shipment management, user authentication, and AI inference APIs

· **Vector Database Integration**: Leveraged Qdrant for embedding-based document and knowledge retrieval

· **Scalable Deployment:** Containerized services with Docker for reliable and scalable deployment

· **Tech Stack:** Python, FastAPI, PostgreSQL, Redis, Qdrant, Docker, OpenAI API, Antigravity

Shiash info Solution Private Limited
Junior data analyst Intern (Part-time)

· **Data Analysis:** Analyzed datasets using Python and SQL to extract trends and actionable insights for business
reporting, Performed data cleaning, preprocessing, and validation to ensure accuracy and consistency of analytical results
· **Development:** Leveraged GitHub Copilot to accelerate data analysis scripts, SQL queries, and Power BI calculations
while maintaining code quality.
· **Experimentation:** Assisted in exploratory data analysis (EDA) and automated recurring reports to improve efficiency

Publications & Content Creation

· **Research Paper (DEVELOPING AN LLM FOR LAW UTILITIES, IEEE Conference):** Co-authored a research paper on building a large language model (LLM) tailored for the Indian legal system, focusing on legal research, document summarization, and real-time assistance." (March '25)

Certifications

·**Gen AI Specialization:** Google (May 2025)
·**Deep Learning Specialization:** deeplearning.ai - 5 course series (March 24)
·**TensorFlow Developer Certificate:** Google Cloud (December 2024)
·**Natural Language Processing Specialization:** Udemy (July 2024)
·**Machine Learning Specialization:** Udemy (December 2023)

Leadership & Volunteer Experience

Member(AI Club) - Dr. MGR Educational Institute Chennai, India
·Participated in AI club activities, attended workshops, and contributed to organizing sessions on AI topics (Aug 2024 - May 2025)

Developer Zug Meetup Participant Chennai, India
· Attended technical sessions and workshops on software development and emerging technologies (Aug 2024- Sept 2024)

The Institution of Green Engineers (IGEN) Chennai, India·
Coordinating events focused on Sustainable Green Development Goals (SDGs Feb 2024 - May 2025)
